ATTENDEES BY SENIORITY

WHERE YOUR SOLUTIONS FIT

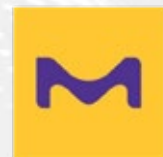

Get direct access to transformation executives, help them build smart strategies and invest wisely, and position yourself as a frontrunner.

ATTENDEES BY GEOGRAPHY

- 80% of Europe
- 10% of Middle East
- 10% of North America

COMPANIES WE WORK WITH INCLUDE

ONSITE OPPORTUNITIES

When you partner with Global Bioprocessing & Biotechnology Summit you are not only privy to networking drinks but your company will also have direct access to our attendees through a wide variety of networking functions, some of which can be entirely bespoke.

YOU CAN EXPECT...

- Enhanced seniority of attendance
- An interactive agenda (keynotes, fireside chats, panel discussions, masterclass workshops, roundtable discussions), which will give you better opportunities to position your solutions against our attendees' challenges.

Keynote:

This is the main headline act for your company. Keynote presentations are noncompeting, Client led sessions, fireside chats, are encouraged as all eyes on you.

Panel Discussions:

Participate in a panel session on the main conference agenda. You will have the choice to participate as the panel moderator or a panel speaker.

Parallel Tracks:

Track presentations are designed to give our audience a more customized experience and our speakers a more engaged audience. This speaking opportunity can be done in a multitude of different formats but client-led case study presentations garner the best results.

Masterclass Workshops:

Facilitate up to 90 minutes long workshop session. This will allow you to demonstrate your company's expertise to a niche group of key industry players that not only have reserved their spot, but also have specific interest in the topic you will be presenting.

NETWORKING

- Prime exhibition booths • Private lunch and dinners • Full access to contact list of attendees
- Cocktails reception • 1-2-1 meetings
