REGULATORY AFFAIRS INTERNSHIP
MARCH TO AUGUST 2027 – 6 MONTHS

As a 5th year pharmacy student, I am seeking a 6-month internship in pharmaceutical regulatory affairs. My experience in a university hospital, community pharmacy and within the pharmaceutical industry has enabled me to develop a strong understanding of medicines, traceability, compliance, and cross-functional collaboration. Detail-oriented, quadrilingual, and comfortable with reviewing and analysing scientific documents, I am eager to contribute to regulatory intelligence, document management, and regulatory monitoring activities.

PROFESSIONAL EXPERIENCE

Pharmacy Intern - Rennes University Hospital — **Since August 2026**

- Supported the secure dispensing of treatments in accordance with hospital procedures and regulatory standards.
- Collection and organisation of information provided by several pharmaceutical companies regarding treatments supplied through the french AAC program.
- Implementation of dispensing safety procedures in a hospital environment subject to stringent documentation and regulatory requirements.

Community Pharmacy Practice — **June 2022 - August 2026**

- Dispensed medications and provided pharmaceutical advice to a diverse range of patients, in collaboration with the pharmacy team and in compliance with applicable procedures and regulations.
- Managed and prioritized requests in community pharmacies with varying levels of activity.
- Independently coordinated and prepared medication supplies for nurses and nursing homes.

Observational Placement in the Pharmaceutical Industry - NextPharma, Ploërmel — **June 2024**

- Analysed the coordination between Quality Assurance, Quality Control, Production, Project Management, Regulatory Affairs and Pharmaceutical Development departments.
- Developed an understanding of the medicine life cycle, from production to quality control and compliance monitoring.
- Gained awareness of organisational challenges, industrial performance and compliance with regulatory requirements.

Analytical Chemistry Tutor - Tutorat Rennais — **January 2022 - March 2024**

- Supported first-year students in preparing for highly selective pharmacy entrance examinations through sessions and lectures, exam corrections and personalised feedback to identify areas for improvement.
- Developed skills in summarising information, scientific communication, teaching and organisation.

Customer Service and After-Sales Representative - OCP, Rennes — **January 2022 - June 2023**

- Processed, analysed and monitored complaints from community pharmacies and healthcare institutions.
- Developed an understanding of distribution flows between pharmaceutical laboratories, wholesalers, hospitals and community pharmacies.
